**LOG IN**

## 2 COGNITIVE SKILLS RESOURCES

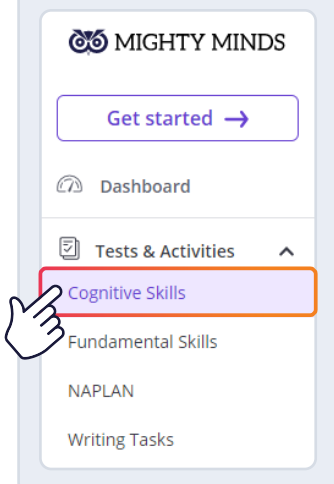

Before we go into detail, first here is a list of the main cognitive skills resources you can take advantage of on the Teacher Portal.

- Assign students hundreds of cognitive skills lessons (self-, peer- or teacher assessed). [View](#)
- Quickly present classroom ready cognitive skills lessons. [View](#)
- Present the *Pathways to Success Cognitive Skills* student workbook on-screen. [View](#)
- Review self-directed learning cognitive skills questions. [View](#)

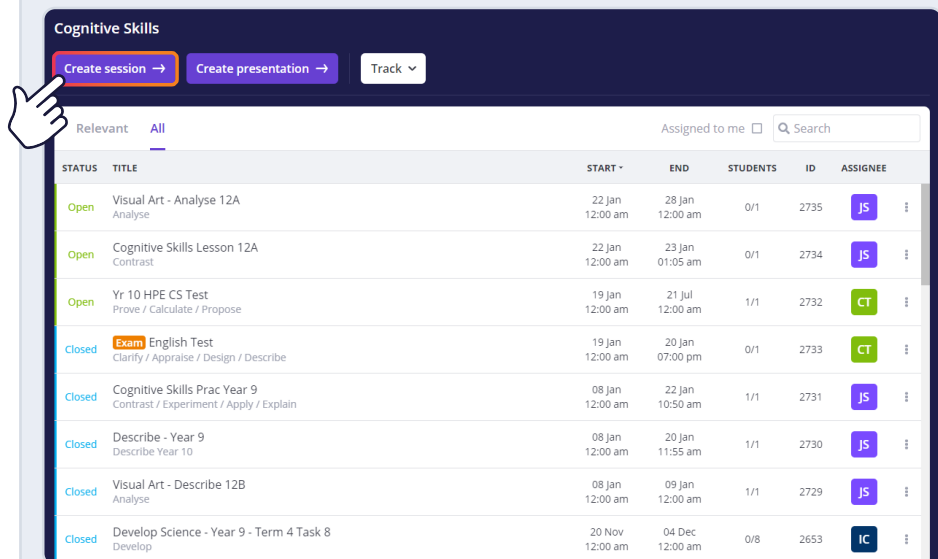

## 3 ASSIGN COGNITIVE SKILLS LESSONS

Our cognitive skills questions cover a large range of senior and junior subjects. Marking is done online using our unique proficiency scale system – this system allows for students to self-assess and peer assess lessons.

Use the left-side-panel to navigate to **Cognitive Skills**.

Next, click on **Create session** to begin setting up an online cognitive skills lesson. Extra information and steps are provided during setup.

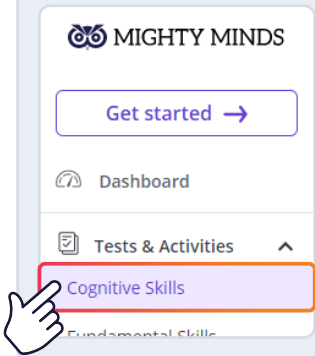

Once your lesson is created it will appear in this table. Select a lesson from the table to access the following features:

- Mark responses / Review marking / View results
- Present the lesson as a classroom ready presentation
- Edit lesson details

#### 4 PRESENT CLASSROOM READY COGNITIVE SKILLS LESSONS

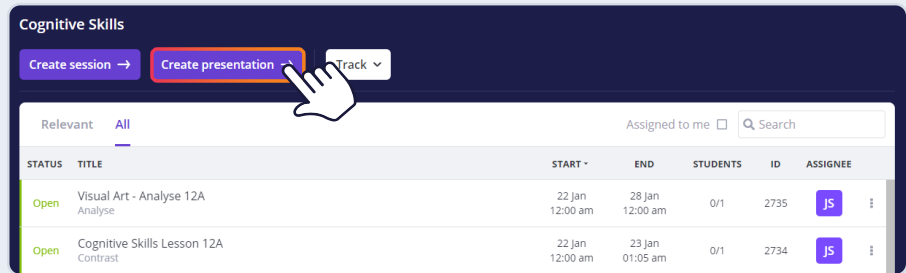

Our cognitive skills presentations are a great tool for kickstarting lessons quickly. Each question included in a presentation has been deconstructed into multiple parts, designed to assist teachers in helping students develop their cognitive skills.

Use the left-side-panel to navigate to **Cognitive Skills**.

Next, click on create **Create presentation**. You can select multiple questions to include in the presentation.

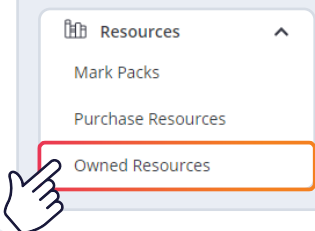

**Tip:** Copy the URL of your presentation to share with other teachers or save for later.

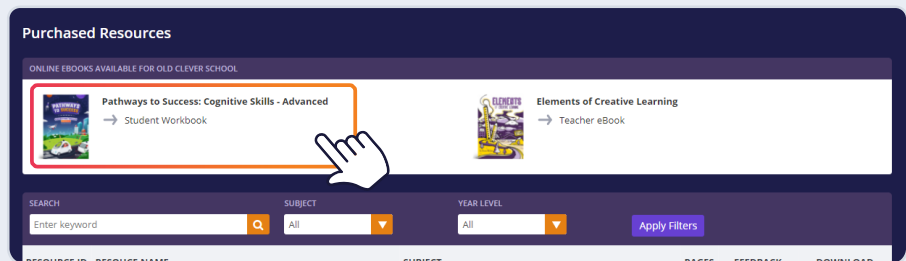

#### 5 PRESENT THE COGNITIVE SKILLS STUDENT WORKBOOK ON-SCREEN

Our online student workbook contains all of the content and model answers from the physical workbook, allowing for teachers to present pages on-screen while students follow along.

Use the left-side-panel to navigate to **Owned Resources**.

Next, click on the *Pathways to Success Cognitive Skills* student workbook.

#### 6 REVIEW SELF-DIRECTED LEARNING COGNITIVE SKILLS QUESTIONS

All students with an active cognitive skills subscription have access to self-directed cognitive skills questions via the student portal – this can be accessed via the Cognitive Skills tab.

To review a student's work, navigate to the **Cognitive Skills section** on the teacher portal. Click on Track and then from the drop down menu, select **Self-directed cognitive skills questions**. Now select a student and you will be able to view a list of cognitive skills questions attempted by them and their responses.
