

ONLINE PROGRAMS

Fundamental skills

Our Fundamental Skills program was created to enable student-driven learning in a fun, interactive and rewarding way while providing content aligned directly with the Australian Curriculum. This program can support your children’s learning in class or at home.

INCLUDED FEATURES:

- ✓ Focus Element Assessment – unlimited access to 40 000 questions and detailed theory in English, Maths and Science, aligned directly with the Australian Curriculum.
- ✓ Self-paced personalised learning – interactive platform allowing students to learn at their own pace. Students can earn points, unlock avatars and compete with their peers on the leaderboard.
- ✓ Diagnostic testing – a valuable insight into students’ strengths and areas of concern, with detailed reporting, personalised feedback and revision questions to drive student improvement.
- ✓ Diagnostic testing aligned to ACARA – access to all of Mighty Minds tests for language conventions, reading, numeracy and writing.
- ✓ Automated weekly tasks – weekly tasks aligned directly to your school’s unique curriculum plan for English, Maths and Science. No program changes are required. We monitor your data for free.

The Fundamental Skills program places practise questions, theory, testing and tracking right at the students fingertips, providing the perfect low-cost solution to integrate fundamental skills into everyday teaching.
